COST INCREASE - MODEL 700 BOLT HANDLE

It is understood that the vendor has increased the piece price of subject component twice since January of this year.

The first increase was from \$.777 to \$1.00 each, and the second from \$1.00 to \$2.00, for a total increase of \$1.223 each.

Based on the #2-1968 Forecast, the annual increase will amount to \$76,950.

Wow!

Present Bolt handle sent to EDM, Joplin in Ann
Arbor for some cost information. Process people
working with H&P. or cold forged just like they
tried earlier. Should have information from H&P. L. Stueck.
