NEW YORK CITY POLICE DEPARTMENT

SCHEDULE A-719204

OPENING DATE: AUGUST 21, 1968 - 10:30 A.M.

200 MODEL 660 CARBINES, CALIBER .223 REMINGTON

Negotiations with NYCPD have resulted in a formal request for quotation for 200 M/660 Caliber 223, with 1 in 12 twist and supplied with 1½" quick detachable swivels.

Delivery is required within 30 days after date of order. However, in our negotiations with NYCPD, we have held steadfastly to a 60 day delivery period, as suggested by the Plant. We will therefore offer delivery within 60 days after date of order.

The Plant, by copy of this memorandum, is requested to confirm the delivery period.

To enable us to submit a timely bid, technical comments, when needed, will be obtained verbally from the Plant.

Estimated value of this procurement, based on wholesale-less-tax price, is \$13,400.

RMA Adams, Jr./eea

Won't need any new tooling - start with 222 cal reamed Blank and process using 223 mandrel. All other operations remain the same.
