SUBJECT: EXPERIMENTAL XP-100 ACTION

It has been my intention to sell Andy Slaboc the XP-100 Action No. 0004 at a very nominal price as a reward for his help in the development of this pistol. He is listed on Patent Des. 201,366 issued on 6/13/65 as co-designer along with Leek and Chambers (Docket No. 1472). His excellent work on the carving of the model stocks for this gun contributed greatly to its novel left-right hand design.

I suggest that we charge Andy \$1.00 for this pistol just to make the transaction a legal sale.
