Harry Pagett Gun Shop

Sales and Service

MILFORD, OHIO
125 WATER STREET

10-2V-69

Mr. J. H. Nelson
Ilion
N.Y.
West Hill, N.Y.

Enclosed please find a Xerox copy of a 5 shot pump shot at 100 yds, with the Rem 600 action mentioned in your letter of 3-21-69.

The barrel used on this action was one made by the "cold" forging process on a machine made by The Cincinnati Milling Machine Co. for General Motors.

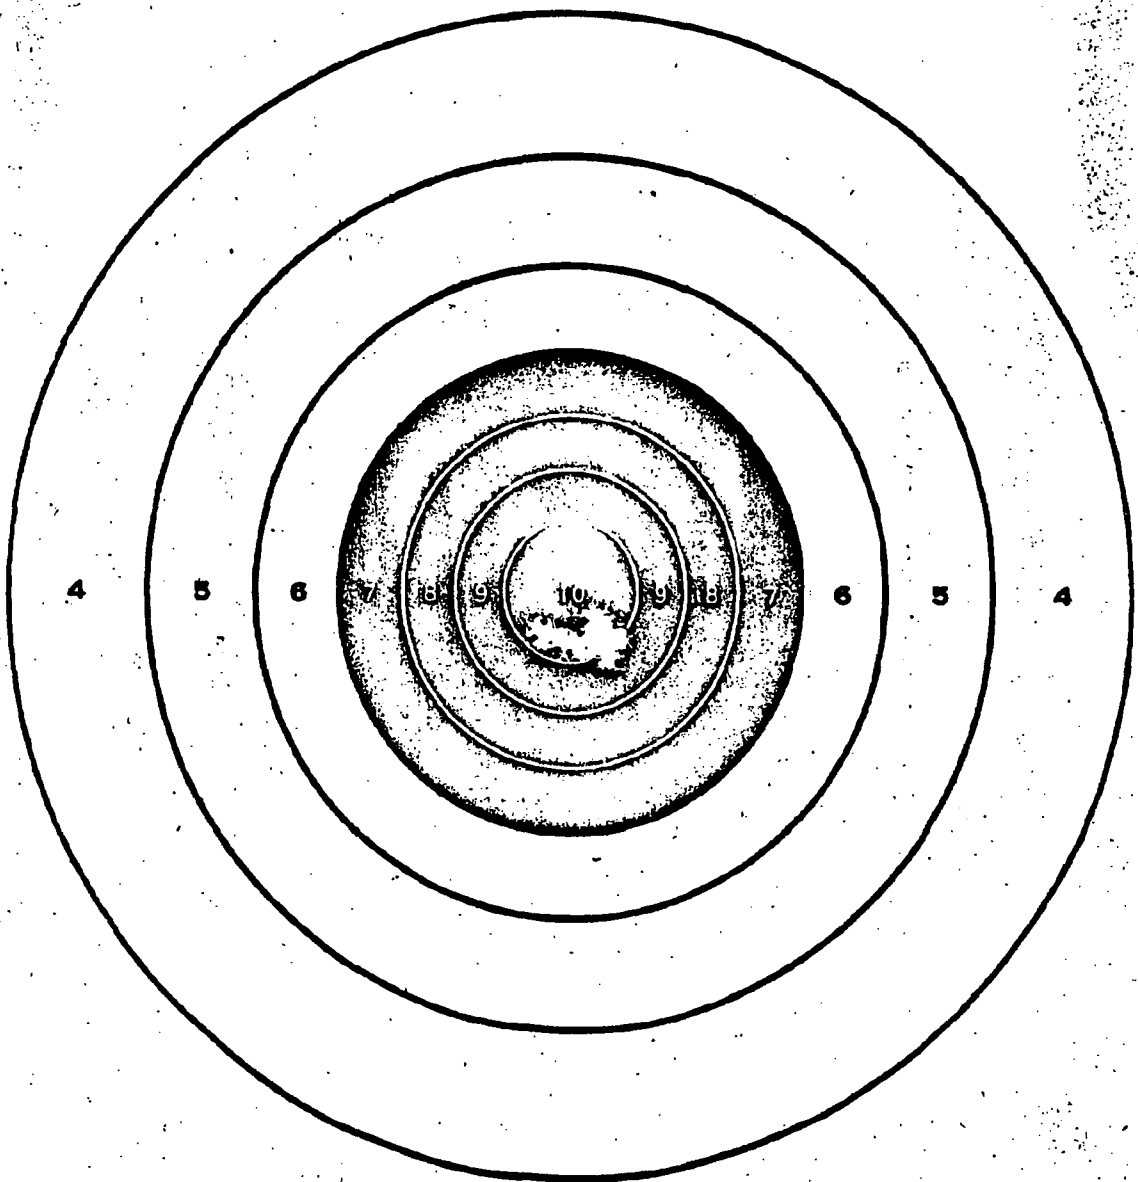

The technician who mounted the barrel and made the stock (South Jew) was a Mr "Slim" Nelson. He informs me you have a 20 power scope. If available please send brochure.

Also enclosing 3 color slides of 223 Rifle. In case you would be interested in test firing this rifle - just say the word & it will be forwarded to you.

Thanks for your courtesies,
Sincerely, Harry Pagett
