Dear Mr. Pagett:

Thank you for the information on the results of the custom rifle made on the Model 660 action. It certainly does look like a fine job and those who worked on it are to be congratulated. I am passing your memorandum and pictures along to Mr. Kindzierski, who initiated the arrangements back in March of this year. In the event that they would like to have any more information, you will be hearing from them direct.

Sincerely yours,

S. M. Alvis, Manager
