M/788 EQUIPMENT -30/30 & 44 CALIBER

The discontinuance of Model 788 Center Fire Rifle 30/30 and 44 calibers has been authorized.

Planning Section has approved the release of the listed component equipment by May, 1971.

Disposition request to be started for the listed equipment.

Special Machines listed for M/788 Center Fire Rifle 30/30 and 44 calibers are not adaptable for other production model components.

It is recommended that Works Engineering review this equipment for salvage of heads, electrical equipment and machine tables.
