AUSTRALIAN 700 and 541 TRIGGER ADJUSTMENTS

We have shipped to Boustead, through Custom Repair, 136 screws each of four different lengths and shapes. They are to replace the Trigger Adjustment Screw and the Trigger Engagement Screw on the M/700. We also included 12 6-40 nuts to be used with the Trigger Engagement Screw on the M/541S. We also included several Allen hex wrenches for assembling the screws along with instructions and cutaway views showing location and proper adjustment.
