LIMITED DISTRIBUTION

Ilion, New York
February 21, 1974

TO: W. E. LEEK
FROM: C. B. WORKMAN
SUBJECT: TECHNICAL SERVICES STAFF MEETING - Feb. 25
(Last Meeting Held February 11, 1974)

COMPUTER AIDED DESIGN

The high speed range has been used but preliminary runs indicate that peak pressures don't agree with oscilloscope readings. Therefore, a calibrating signal device is being designed which can be used for set-up and check-out. Two new features have been added to high speed range. Peak values are primed for every shot ad, if required, available impulse is also printed.

Mylar tape-punch proposal is awaiting P E & C's endorsement. Delivery will be 60 - 90 days after P. O. issued.

RAMPS preliminary instructional meeting held on Feb. 14. All persons responsible for making schedules have been contacted and are preparing their preliminary CPM-PERT runs.

The gun-motion program is waiting for empirical data from the test lab. (shoulder-force, pressure-time, and displacement curves for a heavy-shoulder shooter firing M/870 12 Ga. shotgun with a heavy load).

The target measuring program is being converted and streamlined for use on our present system.

MEASUREMENT / TEST LAB

M/3200 Over and Under Shotgun

1. 12 Ga. 3" - New Top Tang design - 1 7/8 oz.
 - a. SN 20822 - 10,000 endurance - at 2,000 lbs.
2. Developing 12 Ga. R-W-F target ammo internal ballistic data via high speed system.
3. Have request for clay bird trajectory data.

M/742-X New Design Autoloading Rifle

1. No testing activity.

M/1100-X New Design Autoloading shotgun

1. SN0001 - Re-established orifice with corrected gas system components. (Read point for IV & TV to be defined).
2. Gun is now located in design area.

M/1100 Product Improvement

1. Assisted plant / C. B. Workman with 12 Ga. skeet D.B.B.
2. Assisting production with cocking block endurance.
 - a. Exp. at 1600 rounds of proof testing.
 - b. Prod. at 5700 rounds of proof testing.
3. Received four M/1100 assemblies and Exp. high rib barrel for P.O.I. evaluation.
4. Received production sample of poly duck plugs (410 Ga.) for evaluation.

Miscellaneous Lab Activity

1. M/700 - 222 Rem. Quality Audit (waiting for guns).
2. S.A.A.M.I. 6 vs. 4 groove P./V. Test complete - report being written.
3. M/700 - 264 Win. Mag. barrel erosion test in process.
4. De-bugging M/1100 dry cycle machine.

MEASUREMENT / TEST LAB (Continued)

Miscellaneous Lab Activity (Continued)

5. Process of summarizing 12 Ga. high pressure work data.
6. M/870 - 12 Ga. - 3" "Ducks Unlimited" testing joint (ecco bond & rivit) and medallion durability of glass
 - a. Initial 500 round test - satisfactory
 - b. 5000 round test (CEW) in process.
7. Doing high speed photographic work for custom shop on function of new Remington Trap & Winchester Trap.
8. 12/20 Barrel Burst Testing.
 - a. M/870 2 barrels - okay
 - b. M/1100 4 barrels in test
9. M/870 - determination of Max. open velocity / unlock time per C. F. W.
10. Safety meeting 2-19-74.
11. Assist Norm Menard with 12/20 Barrel Burst Test.
12. Housekeeping inspection W. E. L.
13. Attached is list of photographic services:

MEASUREMENT / TEST LAB (Continued)

Miscellaneous Photography

Color photos of M/870 packing procedure (plant).

Color and B & W photos of 2,000,000 M/870.

Miscellaneous photos for the Remington Action.

Test results and changes of M/3200 Tang Block Endurance Test.

B & W prints of "United Fund" awards dinner.

Public Relations photos for "Junior Achievement" program.

Photos of test results of M/700 pilot line test (bore chamber).

Plant requested photos of dept. with poor housekeeping.

Photos of various machines to be sold (plant).

Color photos of Hi-Dense display board.

Many miscellaneous plant injuries - Minor and Major.

Photos for M/540XR instruction folder.

Photos of various 3200 parts requested by P E & G.

Photos of scroll work in connection with N/C work on M/870.
"Ducks Unlimited" gun.

AAH:bd

SPECIFICATIONS, TECHNICAL INFORMATION & SERVICE

1. Package label art work program completed.
2. Owners Manual for 540-XR. Mechanicals and exploded view 90% complete.
3. 40XR and 40XC standards have been started.
4. Standards for M/870 "Ducks Unlimited" to be done.
5. Standards for 3200 32" Bbl. & Magnum to be done.
