

7mm 66 Bolt Lock

No activity last month because of
priority conflict with Competition Trap Gun.

11750 - 7mm MAUSER (7x57)

Testing of the press form stock has
been completed. ~~Results show that~~ deep
cracks in the stock were uncovered during
the test that make the stock unsatisfactory
for use in a bolt action center fire rifle.
Production recommended that the ~~press form~~ ^{press form}
project be closed out at the January operations
committee meeting.

Accuracy of the rifle was acceptable.
Function

11750 Varminter - 7mm-08 caliber

Accuracy tests with production
ammunition and handloads are being
conducted to establish production quality
standards. Results will be available
within a week.
