Investigation into cost reduction and improvement on the bullet job has been re-initiated to determine what is required to produce bullets at a profit. Proposals will be reviewed and submitted for evaluation.

Our bullet job operator has been the successful bidder for engraving job in Arms Service Division. A request to re-evaluate the job for the purpose of establishing proper classification and rate has been made. Job bidding for a new operator will be posted in early January. A 2-month training period will be required for the new operator. This will result in a substantial unit/cost increase during the training period.
