MODEL 600 MINI CARBINE

Pete, I just came across a note which said to send information on
M/600 Mini Carbine to you.

This rifle would satisfy the needs of the back packer, (we have a
back pack with scabbard but Barrett did not want us to show it), guide, and
deer hunter for a light, short, and fast handling rifle. It would be great
for shooting deer out of a pick up cab. The rifle could be offered in one or
two grades, with any of the popular short action cartridges.

Enclosed is the spec sheet ~~and picture~~.
