

PAGE NUMBERING SYSTEM  
SAAMI TECHNICAL COMMITTEE MANUAL  
(FIREARMS VOLUMES)

EXPLANATORY NOTE

The SAAMI Technical Committee Manual for firearms consists of five volumes. The data sheets are numbered in such a manner that none will carry the same number in any of the five volumes. Each sheet is assigned a volume number followed by a dash and a section number. The first sheet in each section will start with .01 and each successive sheet for that section will be consecutively numbered.
