Jack Carter

Jack the enclosed file of letters was sent to me by Jim Sted. I cannot find copies of the last letters in my file to J.H. Brooks which is probably me since I first contacted Earl on the subject.

This started out as a recommendation to Earl whom I thought would handle this but it looks now as though it is yours to handle. It now seems I should have started with you. If you want to discuss this please call.

It looks as though you can sell parts if we follow the proper procedure. John
