TO: J. H. CARTER
FROM: P. H. HOLMBERG
SUBJECT: FIREARMS DESTINED FOR AUSTRALIA

Attached is Australian "Safety Tests For Imported Firearms." It outlines required tests and procedures that all firearms shipped into Australia must meet.

These Australian procedures have remained unchanged since 1972. Consequently, any unique procedures we currently perform on guns destined for Australia are adequate.

Please let me know if you have any questions on this matter.

Paul
