SUBJECT: SPECIAL TRIGGER FOR WALLY HART

Approximately two years ago we sold Model 700 triggers that had been cut off at the pivot hole, to Wally Hart. The trigger is a restricted part; however, the part as sent to Wally cannot be used in a Remington trigger assembly. We feel the part can be sold as altered without creating a conflict with our present policy.

If Marketing and Legal agree to sell parts, they will be altered in our plant before shipping. Wally Hart will be charged the full price for the part without any discount. This will take care of the cost for cutting the parts off.

Custom Repair has the request and will handle the transaction, and we will provide assistance as required.
