P. H. HOLMBERG
C. B. WORKMAN ✓RE: OUTSIDE SUGGESTION FROM C. R. ROBERTSON
FOR THE MODEL "XP-100" SILHOUETTE PISTOL

Attached is correspondence received from a Mr. Conie R. Robertson regarding his idea for a Model "XP-100" Silhouette pistol with a 10-3/4 inch barrel length in a 7mm caliber.

Please advise whether we have any interest in this idea.

This suggestion fits our overall objective of considering new calibers for existing Remington Products. However, we have already considered this combination and at the time it was not feasible economically. We will move on it if conditions change favorably.
