SUBJECT: NAME FOR BOLT ACTION CARBINE

At the Business Planning Meeting held February 11, 1982, it was agreed that the Bolt Action Carbine will be designated the Model Seven LWT.

Please have the agency develop the same stylized type that we are using on the Models Four and Six.

The type will be needed in order for Ilion to purchase roll marking equipment. The roll mark will appear on the left side of the receiver in the same relative position as the present Model 700. The actual marking will be on one line and not include the LWT suffix, as indicated below.

Model Seven
