"CONFINE YOUR LETTER TO ONE SUBJECT ONLY"

Ilion, New York
February 26, 1982

TO: W. H. FORSON
FROM: J. W. BROOKS
SUBJECT: BOLT ACTION CARBINE - NAME ROLLMARK

This is with reference to your letter of February 17, 1982. We will need receiver artwork no later than March 22, 1982 for this model. This will allow us a week to prepare and transmit drawings to Process Engineering by April 1st, which is the latest date they can receive drawings and still meet their schedule for introduction of this model.

We will put the serial number on the left side of the front ring. We will need to know all of the exact wording that is to be placed on the receiver side panel. In discussing this last week with Paul Holmberg the question was raised about the word "Remington" appearing as it presently does on our center fire rifles.
