From: J. A. Lawrence *JL*  
Subject: Model 700 (1983) Scope Rings

*When will we have total  
factory cost figures - ?  
Clark*

Costs for injection molding scope rings for the upgraded Model 700 have been estimated. These estimates are conditional on reducing the weight of the scope mount (through redesign) by one ounce per set.

Initial tooling cost is \$30,000.00.

Set of scope mounts is \$4.77.

Additional costs will be incurred by tapping the screw holes and finishing.
