

12-10-82

Dear People:

I just read a article in
Jan 1983 Guns & Ammo By
Jon Sundra that Remington
has done away with their
Bolt Lock on the model 700.
could you send me information
on this - ARE the new models
going to have a 3-position safety
or a 2-position with a separate
Bolt lock? MR. Sundra may
have his preference but for
me and my friends & customers
we prefer the Bolt Locked.
Please comment on this.
