AMMUNITION RESEARCH

TO: W. H. COLEMAN
FROM: J. C. CALLAHAN
SUBJECT: CENTER FIRE BASICS - MONTHLY REPORT

A presentation on the completion of the basics work was made to ammunition research management. The work included a detailed analysis of physical (weight, dimensions, hardness) and metalurgical (grain structure, percent cold work, tensile strength) properties of the 308 case. Our current case was referenced to prior Bridgeport product as well as competitive offerings from Winchester, Federal and Lake City. A summarized presentation is being prepared for management.
