V. M. ROMANO  
A. W. WHEATON  
R. JACKSON

FROM: J. M. BUNTING *Jay*

SPECIFICATIONS: MODEL 700 MTM (MOUNTAIN RIFLE MAGAZINE)

Specifications for this product do not change except for the addition of a detachable flush-mount magazine box replacing the current floor plate.

Calibers remain the same except for the addition of the 25-06 Remington per the 1992 Development Schedule.

All efforts should be made to implement this phase-in during the late third or early fourth quarter of this year, thereby reducing possibilities of significant obsolete inventories.
