MODEL 700 DETACHABLE BOX MAGAZINE

The attached letter from Neil Oldridge sums up the situation surrounding detachable magazine boxes. Neil makes some very pertinent suggestions which may be an alternative to waiting for a 1993 Remington product.

Enclosed are several samples of the Klip and the trigger guard conversion kit which Kwik Klip uses for the Model 700. I would hope these samples will give us an idea as how to expedite our own product.

Please let me know what you think of Neil's suggestion. Thanks for your consideration.

Jay
