From: Bill W.

Mike Walker did describe his design concepts and reasons for them for the WZOO locking system. This info. is in his patent # 2,585,195 "Breach closing construction..."

I have marked up a copy of the most descriptive parts of this patent and included an unmarked copy of the ringE extractor patent, # 2,473,373.

"THINK SAFETY IN ADVANCE,
YOU MAY NOT GET A SECOND CHANCE"
