REF.: "MONTHLY REPORT" FOR JUNE 1992

SAFETY, HEALTH AND HOUSEKEEPING:

- Site audit for the month was completed.

PERSONNEL ISSUES:

- No significant items to report.

MAINTENANCE:

- There are currently two test jacks in the machine shop for repair, the testing of the m/700 Stainless Steel Magnums took its toll on the test devices.
- Two of the shot catchers are down for repair and need welding, the work orders have been written.

TEST PROGRAMS:

- M/700 Stainless Steel
 - Trial & Pilot has been completed on the Magnum calibers and on the Mountain Rifle Calibers.
- O/U
 - Still waiting on the submission of the Design Acceptance guns from Design.
- Marine Magnum
 - Same position as last month, waiting for Production to supply sample of guns for Trial & Pilot Testing - They are having difficulties with the plating and resulting assembly problems.
- Miscellaneous (in progress)
 - ECM barrel endurance and accuracy testing is underway.

PROJECTS:

- Passive Bullet Traps Project-
 - This project has been approved and the bullet catchers are scheduled for installation late this summer or early in the fall.
- S.A.A.M.I. Ref. Ammo Storage
 - The project write-up has been approved and the equipment is on order.
- Upgrade of Instrumentation Capability in Test Lab-
 - Continuing to look into equipment and methods.
