handsome stock is carved from fine select European walnut and richly finished in special hand rubbed stock oil to enhance its beauty and durability. It has a comfortable cheek piece with Monte Carlo and a Wundhammer swell pistol grip. The hand cut checkering is 18 lines per inch.

The meticulously superb Swedish workmanship of the new Carl Gustaf 2000 makes it an outstanding addition to any rifle cabinet and a special pleasure to use. Each Carl Gustaf 2000 rifle must pass individually exacting inspection before it receives the exclusive "crowned C" stamp on its receiver. This is the Royal Swedish symbol of quality and durability, reserved with pride over the centuries for only the finest products of the land. It is
