

11/30/88

Dear Mr. Stahl

Hi, I spoke to you, Wednesday AT 9:45 AM.
 About my 35 whelen; my name is
 Jeff Adams, I bought the gun for the
 1988, Bear season in Pa. on Tuesday,
 Nov 22, 7:45 AM. My brother and my
 Dad where going to hunt we were
 going to load our guns and spread
 out to post. I was loading my
 gun when I bolted a bullet in the
 chamber, then to put the safe
 on it would not come on. I
 told my Dad some thing is wrong
 with the gun, safety first make
 sure the gun was pointing away
 from every body, with I do all the time
 I unbolted the bullet, then to try it
 again, by bolting another one in the
 chamber. when the bolt ~~was~~ was
 on the way down to lock, in
 the gun went off, Thank God no
 one was hurt or shot. one week
 later I was hunting Deer on
 Nov 28, 1988 A trophy buck. Stopped
 30 yards, broad side wide open
 I take, aim pull the trigger klick the
 gun did not go off. The buck got
 away. I am very Diskusted, with
 this gun please. If you can fix it
 or replace it. I dont know if I ~~can~~
 can trust it, would you.
