11/19/2007

It was logged in here Friday just before noon; I just got it off the PS truck and did the examination. I could find no fault with the rifle for the accidental discharge. The follower was stuck as received, if that was binding it could account for his feeding problems. We will service the rifle and install an X-Mark Pro trigger assembly.

Fred, Looks like this one came in earlier this week is it just on hold b/c of inventory?  
He's called me twice this week to check on it. You know how they get! ☺
