- Identify possible alternative sources

- Review sample stock Trull sent to Mead as alternative design

Mayfield Topics

504-T LS HB 17 HMR (Diaz/Lance)

- Current status with Shilen Barrels

Model 710 Modular Stock Project (Lance/Diaz/Trull)

- Design confirmed
- Status of tooling
- Estimated time line
- Sample strategy for writers
- Model change/RAMAC change strategy

Model 710 Performance Improvements (Trull/Diaz/Lance/Vicars)

Now that we are on track to create a modern look for the gun with a new stock, is it possible to address other issues we experience with consumers. Issues that continue to haunt, although not on a huge scale are:

- Difficult to open/close bolt
- Magazine latches breaking

Discuss possibilities

Use of Old 710 Stock Tool for Dealer Only Gun (Lance/Trull)

- Could use old tool to create price point offering for Premier Dealer line to address competitive issues with Stevens 200 and Mossberg ATR 100
- Non-Scoped – scope rail only
- Target Pricing – MSP \$229-\$249
- Do we have capacity to address in addition to current production? (6k -10k units)
