Subject: RE: Can you call me? 734-904-7374 - just a couple questions about your R&D exposure. thanks
Attachments: CONCEPT TO CUSTOMER 1-6-03.doc; NPP Checklist 5-2-03.doc; New Product Steering - Commercial.xls; 6.18.08 PTM Agenda.doc; SOP NO. ENG-001_Rev.C.DOC; Marlin R&D Projects ; 5-08.doc

Here are current process docs and xl sheet is what they had on the docket in terms of normal commercial NPP tinkering as of June. Also included a sample agenda from 6.18s product team meeting.

R&D overhaul decks I sent in last email are confidential because they discuss change and movement of ETown to Ilion. Pls treat them appropriately, as I know you will.

SOP is Marlin's business rules for R&D along with Marlin's current projects as of May 08.
