Vince,
We will be meeting tomorrow morning (Wed. 2/27/08) to layout the plan of action. I will keep you posted.
Gerald

Let's start things off on our side now and get PO's placed etc.

Gerald,
I am working on a presentation per the instruction below for the Model 770 fire control. Do you have any new information on this project in regards to the following?

1. Status of the CAR
2. Production tooling orders
3. T&P and production implementation budgets and schedules

Please respond as soon as possible so that I can complete my presentation for Danny.
Thanks much,
Vince

Everyone:

Spoke to John DeSantis early this evening. He and Ted Torbeck will be in Elizabethtown Tuesday March 11.

I do not know how long they intend to stay. Once again I believe we should plan something very much like we did for DeSantis and Blackwell on their first visit.

In addition to project descriptions, benefits, status and schedules, Mr Torbeck has requested that we provide him with project budgets and spending to date. While our budget has not been officially approved please get with Mr. Curry to work through this part. Also I understand that some of you are working on projects that were never budgeted, lets just collect costs and I will work through this with John DeSantis.

Firearms guys please get me something at least to look at by EOB Friday, 2-29.

Any questions, please send me an email.

Thanks,
DDD
