**Attachments:** 301898 Safety Arm.EDRW; 301898 Safety Arm.PDF

Carl,

Attached is the safety arm drawing (rev. C) with revised datum scheme per our discussion last week. Let me know what the timing is on designing and building (2) fixtures. I would like to review the design when it becomes available, particularly when it comes to how we establish an X and Y set point.

Thanks,

***Derek Boyles***

Derek,  
I have made the changes to E-301898, Safety – RH, that we discussed yesterday at Brainin. The datum scheme was changed as well as the slot width. I felt I needed to go ahead and make that change so that we can get Datum C in the right location on the drawing. Please review and then forward on to the appropriate personnel.  
Thanks,
