

Brothers web training 700

Features common to all 700

Level I

Three Rings of Steel- all model 700s have three rings of over lapping machined steel components to enclose the cartridge head providing the strongest bolt action rifle on the market today.

Best Factory trigger available- the X-Mark Pro trigger breaks like glass, has virtually zero creep and offers a level of shot control unmatched by any factory trigger today.

Most accurate line of factory-built rifles in the world- When 10 out of 11 competition shooters choose the model 700 as there competition rifle and when there have been more custom rifles built on the 700 action than all other action combined. There is no need to brag the target does it for you.
