Customer (Jeff Lucas) 12/1/2006 4:24:21 PM

Just wondering what the status of my question is. I got the original auto response stating I would hear something within 3 days or so and it is now 11 days. Do you need more information in order to answer my question? I really would like to fix this problem. Is this something that needs to be taken into a gunsmith or something I can fix?

Any help you could provide on this issued would be greatly appreciated.
Would like to fix this so my son can start using.

Has there been any issues or recalls on the safety. My muzzle loader fires automatically when I take the safety off.

Any suggestions on how to fix this problem?
