Dear John:

Thank you for visiting Remington Country. According to the information that you provided, your Remington Model 700 was produced in or around 1974. We do not have production totals for specific calibers. The Model 700 was introduced in 1962 and is still in production today. This model is widely recognized as the QUOTEmost accurate out of the box production rifleQUOTE on the market today. We would suggest that you review the information found in the Safety section on our homepage in the Safety Center entitled Bolt Action Safety Message: Safety Modification Program for certain pre-1982 rifles .

The Model 700 bolt action rifle has been one of Americas premier hunting rifles for 42 years. Over 4 million of these rifles have been sold to hunters, target shooters and law enforcement agencies across the US. When used following the rules of safe gun handling, including proper maintenance, and not inappropriately altered, the Remington Model 700 is a safe rifle.

If you or someone you know is having a Remington rifle fire when the safety is removed, the firearm should be sent to Remington for evaluation. We can send a pre-paid UPS ground shipping label if there is a concern with shipping fees.

For U.S. repairs, please follow these guidelines:

1. Record the serial number of your firearm before sending it to us.
2. Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box, not a hardcase.
3. Remove all accessories from your firearm to prevent loss or damage. This would include scope, slings, or extra choke tubes.
4. Enclose a letter with the firearm detailing the model name or number of your firearm and serial number along with a full description of the problem. Be sure to include your full name and address (P.O. Box and Street Address), including zip code, daytime telephone number, and e-mail address.
5. Ship your firearm by either United Parcel Service (UPS) or Parcel Post (US Post Office). Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier. Customer is responsible for shipping charges to the factory.

For U.S. repairs only, ship to:

Remington Arms Company, Inc.

Attn: Arms Services Division/Repairs

14 Hoefler Avenue

Ilion, NY 13357

WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

If you have any questions as to the warranty on Remington firearms, please refer to our Firearms Warranty .

Dear Remington:

I have purchased the above model many years ago and I am an avid outdoor hunter. This gun mis-fired during opening day of deer season when I went to take the safety off, the gun fired and about took off my foot, I have refused to use the gun ever since, but I am concerned that someone else will eventually get access to the gun and they may not be as lucky as I was. Do you have any solutions to fix this problem.

Kind Regards,

John R. Mathews
