

NEW CLASSIC DELUXE VERSION OF REMINGTON® MODEL SEVEN™ INTRODUCED IN FULL RANGE OF CALIBER OFFERINGS

Madison, NC – The fast-handling, short action Model Seven rifle is now available in the classically-styled CDL™ platform in standard and short action magnum offerings. For 2006, this newest member of the Model Seven family will be offered in .204 Ruger, .223 Rem, .22-250 Rem, .243 Win, .260 Rem, 6.8mm Rem SPC, 7mm-08 Rem, .308 Win and magnum chamberings include .270 WSM, 7mm Rem SA Ultra Mag, .300 WSM, .300 Rem SA Ultra Mag and .350 Rem Mag. The broadest line of short action bolt offerings in the marketplace today.

Based on the legendary design and strength of the Model 700™ bolt action, the Model Seven is revered for its unprecedented accuracy, dependability, compact length and precision balance. Whether hunting in dense cover, trekking through mountainous terrain or sitting in your treestand, the Model Seven delivers unparalleled performance in a true short action rifle.

The **Model Seven CDL** combines performance and durability in a traditional American walnut, straight comb stock with right hand cheek piece. The stock is accented with black fore-end tip and grip cap, handsome cut checkering and satin finish. Standard offerings feature a clean 20-inch barrel and magnum calibers sport a longer 22-inch clean barrel (.350 Rem Mag has more compact 20-inch barrel with rifle sights) with target crown. The metalwork has a non-glare, satin blued finish and the jeweled bolt handle compliment the classic style of the stock. Hinged floorplate magazines (5+1 capacity for .204 Ruger and .223 Rem; 4+1 for short actions and 3+1 for short action magnums); sling swivel studs; and revolutionary, recoil-taming R3® Recoil Pad complete this well-designed package.

The **Model Seven CDL** and the **Model Seven CDL Magnum** are the ideal short action rifles, regardless of the prey or the hunting conditions. Suggested retail price: \$769 to \$796.
