**Remington® Introduces Model 700™ Federal – Designed to
Deliver Versatility and Precision Accuracy**

Madison, NC – The Remington Military Products Division continues its commitment of delivering precision long weapons systems with the introduction of the **Model 700 Federal**. The Model 700 Federal was built at the request of a U.S. Federal Agency that desired a purpose built precision weapon system that would perform in all environments and situations. The 700 Federal encompasses the best components available and delivers maneuverability, versatility and precision accuracy.

Available for 2009, the Model 700 Federal features a 24 inch 416R stainless steel barrel and is chambered in .308 Win/ 7.62x51mm. The 700 Federal is available in a field-ready deployment system containing the following features:

- Accuracy International Chassis side-folding stock with detachable 5-round box magazine
- Badger Ordnance alloy rings
- three-piece Picatinny-style Modular Accessory Rail System (MARS)
- Leupold® Mark 4® 3.5x10x40mm Tactical Scope
- Butler Creek® Flip-Open™ lens covers
- Harris™ Bipod Model LM.
- Supplied in a durable Hardigg® hard shell black case.

For more information related to the Model 700 Federal and Remington's extensive line of Military and Law Enforcement firearms and ammunition, please visit our websites at www.remingtonmilitary.com or www.remingtonle.com.
