Model 700™ CDL “Boone & Crockett” Series – a Legendary Rifle Celebrates a Legendary Conservation Organization

Madison, N.C. – One of the newest offerings in the Remington® Model 700 family - the **Model 700 CDL “Boone and Crockett” Series**—celebrates America’s most successful bolt-action, centerfire rifle and one of the country’s oldest and most important conservation organizations, the Boone and Crockett Club®. This classic-styled, hunting rifle is offered in eight popular chamberings including **243 Win, 7mm-08 Rem, 270 Win, 30-06 Sprg, 7mm Rem Mag, 300 Win Mag, 270 WSM** and **300 WSM**. (Note: The Model 700 CDL B & C™ rifle series is an exclusive firearm offering available only from select wholesalers through independent Remington Premier dealers. For a listing of dealers in your area, please visit our web site at www.remington.com/premierdealer).

Recognized for its legendary performance and accuracy, the Model 700 has a rigid, cylindrical receiver design that adds stiffness and a solid bedding area for the action in the stock. A counterbored bolt face encloses the cartridge head with an unbroken ring of steel, which then fits inside of the barrel chamber, surrounded by the receiver – creating the famous Remington “three-rings-of-steel.” This time-proven design creates an action of unparalleled strength. With this solid construction and advanced design, the Model 700 has earned a reputation for its out-of-the-box accuracy.

The Model 700 CDL “Boone & Crockett” Series provides that same renowned accuracy and reliability in a classically styled, well-designed package. Housed in a straight comb, brown laminate stock with right-handed cheek piece, black fore-end tip and grip cap, this Model 700 defies the elements and provides the hunter a solid platform they can depend on in any weather. The rifle wears a fluted 24-inch clean, carbon steel barrel on standard calibers, and magnum offerings have 26-inch barrel lengths, with receivers drilled and tapped for ease of mounting optics. Both barrel and action wear an attractive, non-reflective satin blued finish. A jeweled bolt body completes the classic look of these centerfire rifles.

The hinged floorplate magazine has a four round capacity in standard calibers and three rounds in magnum calibers. Fit with a patented Remington recoil pad, even the unwelcome “punch” of the high-powered magnums is significantly diminished. These high performance rifles also have our new X-Mark Pro™ fire control system that delivers crisp, perfect trigger pulls with virtually no creep and come set at three to five pounds from the factory.

A portion of the proceeds from each sale of these rifles will be donated to the Boone and Crockett Club in support of its mission to promote hunting and conservation ethics, research and education.

An attractive medallion featuring the B & C logo is inset into the grip cap and "Boone & Crockett" is laser engraved into the barrel, recognizing this most American of conservation organizations.
