**Thumbhole Stock Version Added to Legendary Remington®
Model 700™ Varmint Line-Up**

Madison, NC – Precision and accuracy are synonymous with the Varmint line of Model 700 centerfire bolt-action rifles. These exceptional, heavy-barreled production rifles are renowned for their out-of-the-box accuracy. The newest member of the family is the **Model 700 VL SS TH** (Varmint Laminate Stock Stainless Thumbhole Stock) chambered in three widely-popular, varmint calibers for 2007 - .204 Ruger, .223 Remington and .22-250 Remington.

The Model 700 VL SS TH has all of the legendary performance features of the Model 700 platform. Rigid cylindrical receiver milled from a solid bar of steel, providing consistent shot to shot placement. The “three-rings-of-steel” design (counterbored bolt face encloses the cartridge head with an unbroken ring of steel, which then fits inside of the chamber, surrounded by the receiver) provides for unparalleled strength. The new Remington X-MARK PRO™ Fire Control provides for crisper trigger pull and now lower trigger pull settings direct from the factory with exceptionally fast lock time. The hammer-forged, heavy contour barrels further enhance long range accuracy.

This newest edition to the Varmint line-up begins with a brown laminated wood, thumbhole-style stock designed with many performance-enhancing features including vent cuts under the barrel channel for improved heat dissipation; beavertail fore-end for added stability; comfortable rollover cheekpiece; and convenient sling swivel studs. This highly-functional stock design provides for rock-steady grip and the tack-driving accuracy required for long range, high volume shooting. The addition of a convenient, four-round capacity hinged floorplate magazine allows for quick follow-up shots and the 26-inch stainless steel barrel has a concave target-style crown and heavy contour design for rigidity. Both receiver and barrel sport a satin finish.

When long-range precision performance is required, Remington delivers with its accuracy-driven line of Model 700 Varmint rifles. Welcome the newest member of this impressive family, the **Model 700 VL SS TH**. Available at a suggested retail price of \$1028.
