DESCRIBE HOW ACCIDENT HAPPENED

A pickup truck with topper was parked on a town road heading north. The victim and shooter were just completing a deer drive. The victim was standing in the middle of the road next to the truck. The shooter was standing at the rear of the truck and was starting to unload his rifle. When the bolt handle was moved to the top of the action the rifle fired. The bullet went through a 2x4 brace at the bottom of the wooden topper. The 2x4 deflected the bullet down into the metal of the pickup box. The bullet made a groove and hole in the top edge of the box and deflected in an upward direction. The victim was hit with five (5) pieces of the bullet.

INVESTIGATOR'S NAME (PRINT OR TYPE)

GREGORY K LANGRISH

TITLE

Conservation Warden

INVESTIGATOR'S SIGNATURE

GREGORY K LANGRISH

DATE

11-18-78

ENFORCEMENT ACTION TAKEN

None As of 12-13-78

COURT DISPOSITION OF CASE

HOW COULD ACCIDENT BEEN PREVENTED

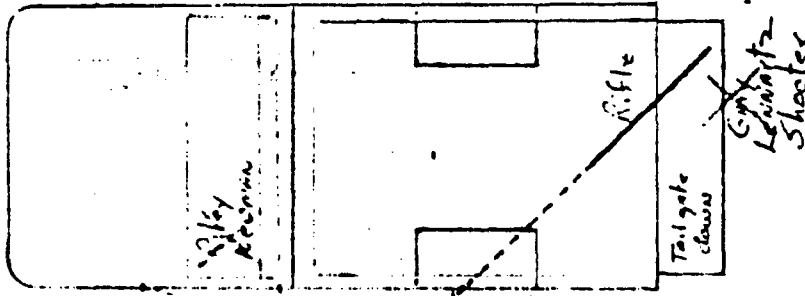

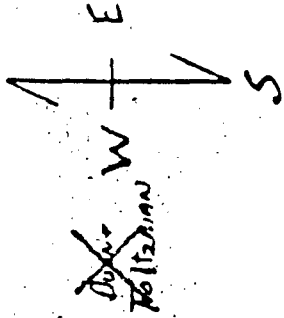

Shooter should have been unloading his rifle with the barrel pointed in a safe direction.
