

COLORED M/572 ADL

Items

1. Guns completed and tested to date
(Summary of development work attached) 2
2. Test rounds each gun (long rifles) 15,000 rounds
3. Accuracy at 100 yds.
 - Aluminum Barrel No. 1 6.2 in.
 - Aluminum Barrel No. 2 5.3 in.
 - Steel Barrel Control Gun 5.3 in.
4. Gun Weight
 - Aluminum Barrel M/572 ADL 4 lb.
 - Steel Barrel M/572 A 5 1/2 lb.
5. High Spot Estimate of Additional Factory Cost
(M&S unable to furnish cost in time for meeting -
This is MDL estimate.) \$3.59
(Detailed summary attached)
6. High Spot Estimate of Additional Investment
for Volume Production (Estimated by PE&C) \$27,500
 - (Major items: 1 Rotary Swager \$9000)
 - 1 Belt Polishing Machine \$5100)

RECOMMENDED FUTURE ACTION

1. Sales estimate volume on increased cost over regular
M/572 of \$10 - \$15 - \$20 on new Remington "Rainbow" line.
2. Economics then be calculated with above information.
3. Sales give consideration and advise on extension of
aluminum design to new rim fire rifles.
