

Arms Minute 5, 1956

MODEL 572

Colored Guns

One shooting model of the colored lightweight Model 572 was shown. This gun had been fired 5,000 rounds. During the last 2,000 rounds only one malfunction occurred.

The Sales Department is continuing its survey of the acceptability of colors, the acceptability of light weight, and the preference among colors.

MISCELLANEOUS

HARPOON GUN

Sales feels that a considerable amount of further exploratory investigation will be required before they can express the degree of interest they have in this gun. It will therefore be removed from the program and will be reinstated at a later date only if requested by Sales.
