SHOTGUNS

SPORTSMAN-58

Fore-end Modification

Assembly of a pilot lot of fore-end rings has been started. To facilitate adoption of this component and to reduce as far as possible the number of types of Sportsman-58 in the field, early production of the new fore-end rings will be used in assembling 16 and 20 gauge guns. This should permit conversion of the 12 gauge in approximately one month. As a result, the inventory of 12 gauge parts to be scrapped will be reduced to approximately \$2,500.
