SHOTGUNS

SPORTSMAN-58

The new gun tags are not yet available, but the Sales Department expects that they will be ready on January 9. They will be submitted to Ilion Plant and Research and Development for comment before a print order is placed.

Reviewing the quality items discussed at the last meeting, the Plant found that the example of unsatisfactory coloring which had worn through after short service appeared to be an isolated case. No other example of this difficulty has been encountered. Examination of the gun failed to reveal the reason for this difficulty.
