OPERATIONS COMMITTEE - ARMS DIVISION ACTION

March 25, 1957

SUBJECT: MODELS 552 AND 572 - MARKINGS

FILE COPY

83

Ilion Research and Development has pointed out that the Models 552 and 572 have the model identification on both the barrel and the receiver. This comes about because rim fire rifles are ordinarily marked on the barrel, but in these two cases the receiver styling is such that model designation has been included there. To avoid duplication, Research and Development recommended the deletion of the markings of the model designation on the barrel.

The committee has taken the following action:

The Operations Committee (Arms Division) approves the deletion of the model designation from the barrel markings on the Models 552 and 572, without obsolescence.

Philip H. Burdett

Philip H. Burdett
Secretary, Operations Committee
