

Arms Division Minute No. 2B, 1958

gold on the ends of the fire control  
retaining pin  
gold bolt  
receiver decoration  
gold and black grip cap, generally of the  
design used on the Model 725  
black butt plate

A sample is being prepared and economics will be developed as soon as the specifications are established. N. F. Larsen has a forecast supplied by the Sales Department.

AP Grade Fore-end

Assembly of guns with the old style fore-end was completed in January and all guns now being assembled have the new style fore-end. A substantial number of guns remains in the warehouse with the old type fore-end and these should be disposed of as quickly as possible. The quantities are roughly as follows:

12 Gauge	8,000
16 Gauge	3,000
20 Gauge	2,000

SPORTSMAN-58

12, 16 and 20 Gauge A Grade

The sample gun was available for inspection and was considered generally satisfactory.

With regard to forecasts, the Sales Department had submitted a forecast on January 3, 1958 which was as follows:

	<u>Spt. 48</u> <u>&amp; 11-48</u>	<u>Spt. 58</u>	<u>Spt. 58</u>	<u>Total</u>
Grade	A	A	ADL	
Retail Price	\$122.95	\$122.95	\$136.45	
Cal. Year 1958	16,000	-	54,000	70,000
Cal. Year 1959 Plan 1	10,000*	-	45,000	55,000
Cal. Year 1959 Plan 2	10,000*	45,000	20,000	75,000
