

C2 Color and light wood on Models 721, 722, 725, 740, 760.

Sales will establish a priority and DED will investigate the practicability of the methods available for coloring steel.

C3 Model 721, 722 Sporter.

This would involve the purchase of a finished stock similar to that being used on the Model 725 but without checkering. The Sales Department will prepare a forecast showing potential sales and reflecting any effect on the sales of Model 721, 722 and 725.

C4 Autoloading carbine based on the Model 740.

Suggested calibers are 30/06 and 280 Remington. Sales Department will prepare a forecast. 83

C5 Lightweight autoloader based on Model 740.

This would involve an aluminum receiver and colored barrel. Sales Department will prepare a forecast.

C6 Bolt action carbine based on the Model 721.

Sales Department will prepare a forecast.

C7 Heavy barreled version of the Model 722.

Sales Department will prepare forecast.

Shotguns

S1 Color and light wood on shotguns.

Sales forecast is to be prepared.

S2 Rifle type sights on shotguns.

This might be offered as an extra barrel. Forecast is needed.

S3 Low cost autoloader based on the Model 870.

DED to continue investigation.
