SHOTGUN SALES PERFORMANCE

The Chairman reported work to this date. The majority of information called for by the procedural outline, set forth in Minute #1-1962, has been gathered. A goal date of March 15, 1962 has been set for completion of information into reports.

Interviews of Browning dealers indicate a significant increase in sales of the Browning "Superposed" over-and-under shotgun. The Committee feels that the apparent trend toward over-and-under shotguns may warrant further investigation of a Remington over-and-under shotgun.
