

between Sales and Production, depending upon in process and finished inventories and future Sales commitments. It is also recommended that the Model 511 and 512 be dropped from the line effective July, 1962 at which time the 1962 production requirements of these two models will have been completed. The Nylon 11 and 12 that would replace the Models 511 and 512 were approved by General Management for invoiced shipment, per Informative Bulletin #23-1961.

#### DEVELOPMENT SCHEDULE

The Committee requested the Secretary to discontinue sending copies of the Firearms Development Schedule to the Bridgeport Plant Manager and the Bridgeport Research Manager for Ammunition.

Meeting adjourned at 3:55 p.m.
