

RIM FIRE RIFLES - contd.MODEL 6600 AUTOLOADING RIM FIRE RIFLE - contd.Committee Action - contd.

Ilion is to prepare a draft of project information based on the selling price (\$84.95), previously estimated sales forecast, and assuming an overall firearms volume of 399,400 after introduction.

The three models, together with estimated operative earnings and cash basis calculations for each, are to be further reviewed by Management.

NOTE: Management advised the Ilion plant July 26, 1965, to hold all work on the Model 6600.

MODEL 40X INTERNATIONAL MATCH RIFLE

R & D is proposing changes in design. A prototype has been furnished Marketing for review. Operations Committee approval will be requested when the proposed changes have been resolved.

MODEL 580 SINGLE SHOT, 581 BOX ANDMODEL 582 TUBULAR BOLT ACTION RIM FIRE RIFLESMODEL 788 CENTER FIRE BOLT ACTION RIFLE

Most of the model drawings for Magazines and related parts have been released to the plant. Until the design and manufacturer's ability to produce had been resolved, procurement was held. R & D reported this now cleared and the plant could proceed with procurement.

Bridgeport and Ilion R & D are continuing with the development of the rim fire magnum ammunition and rifle program. The effect on equipment and costs will be determined when the designs are resolved.
